What if an endowment was set up when John Glenn first flew into space or when Neil Armstrong and Buzz Aldrin stepped onto the Moon’s surface?

$20 MILLION RAISED BACK THEN COULD HAVE GROWN TO $1 BILLION+ TODAY!

Imagine what difference that could have made!

BECOME A FOUNDING DONOR

SPACE 3.0, a 501c3 charitable foundation, was launched in 2019, the 50th anniversary of the first Moon Landing, to build an endowment.

The Challenge

The next evolution of space sector products and services has arrived. As we consider a free and open space economy, it is critical that we preserve past knowledge; empower entrepreneurs and visionaries; craft a compelling vision for our space future; and encourage, support and educate those leading the efforts.

Why SPACE 3.0?

SPACE 3.0 was launched so that collectively we, as individuals and corporations, can create a pooled resource that through grants we can invest in these efforts.

While there are a lot of organizations involved in and around space, there is a critical need to build an endowment whose resources can provide funding for worthy initiatives.

Preserve the Past / Empower Entrepreneurs / Secure the Future

SPACE 3.0 is making this happen. Act now to become a founding donor. You don’t need to be a billionaire to make a difference.

Your tax-deductible charitable donation can make this happen.
